Sustainability factsheet 2022.

With the Hortifootprint we measure the **Eco-score for 95% of our land area.** Together with our growers, we have drawn up **reduction plans**.

Healthy Planet

A healthy life is only possible on a healthy planet. We make sustainable choices throughout the supply chain.

All our Dutch growers are **Planet Proof** certified.

55% of our high-tech land area is connected to a sustainable source of heat.

For example:
12 growers use **thermal heat**
3 growers use **residual heat**
5 growers use **biomass**

Our SBTi-targets:
- **CO_2 reduction** in line with the 1.5-degrees scenario
- and **Net-Zero** in 2040.

SCIENCE BASED TARGETS

Our target:
50% less CO2 (eq) per kg in 2030 compared with 2020.

With Food Fellows we have rescued **1 million kg of tomatoes and 50,000 kg sweet peppers** from going to waste

everyone has acces to healthy, ***nutritious and delicious food***, every day.

healthy people | **healthy planet** | **healthy business**

the source of a healthy life

We **reduce plastic** and we choose mono-material such as PET and PP.

Healthy people

Our vegetables are a safe and nutritious choice. We encourage people to eat more vegetables.

We make our contribution to **10 SDG's.**

SUSTAINABLE DEVELOPMENT GOALS

Every day **fruit, veg-packed soup and salad** for our employees.

Healthy business

We value it when our products and people are appreciated.

We are a partner of National **Healthy Snacking Week** in the Netherlands.

In **75%** of our land area we use **AI in our greenhouses** to match supply to demand.

NUTRI-SCORE A B C D E

All our products are rated **Nutriscore A**.

We offer plenty of inspiration on social media:
- **> 33.000** views
- **> 9.000** views
- **> 250.000** views

We produce **almost 400 million kg** of salads, for consumers all over the world.

We grow **Fairtrade** at our location Desert Joy in Tunisia.

Sustainability is in our DNA.
